

My dear Madam,

I was not when your
kind note came or I should have
answered it at once. I am very
glad to hear that you are discharged
but I do not at all see why I
should lose the pleasure of your
company. I shall fully calculate
on seeing you with Dr. Gray at
6 $\frac{1}{2}$, to give you ample time for
Blenheim - for which I wish you a
better day. very truly yours
